FUN FACTS

INTERESTS
Volunteering · Investing · Football

HOBBIES
Weightlifting · YouTube · Blogging · Gaming

EXPERIENCE

2021 - 2022

(TRAINEE) FULL STACK DEVELOPER
School of Code | Remote

During my time, I learnt the principles of computational thinking and how to apply it, the importance of design whilst considering the user and working in Agile teams.

I initially learnt HTML, CSS and JavaScript and then, moved on to other frameworks/libraries including React.js, Node.js and Express.js. During my time at the bootcamp, I regularly wrote about my experiences and teaching what I was taught on my blog. I also started a YouTube to document my journey and help those starting on their coding journey.

2018 - 2021

CASE HANDLER
Santander | Leicester, UK

I managed full life cycle of PPI complaints with an average quality score of 95% and sent bespoke letters to affected customers regarding the out come of their complaint.

2012 - 2018

SENIOR CUSTOMER SERVICE ADVISOR
Next | Leicester, UK

Dealing with escalated enquiries and complaints over the phone, email and letter whilst ensuring that we are FCA compliant.

Ensuring excellent customer service is given via the telephone and through any written communication

TECHNICAL PROJECTS

BOOK WORMS | WEBSITE | GITHUB

Worked in a team of 6 to build a React/Node.js application for teachers to monitor students' reading progress in a modern way. Implemented back end routes using PostgreSQL to create RESTful API, & React/Next.js on the front end. Implemented express error handling and testing with Jest. Back end and front end deployed on Heroku and Netlify respectively. Led some Scrum meetings and managed project goals on Jira.

SCHOOL OF CODE DASHBOARD | WEBSITE | GITHUB

Worked in a team of 4 for one week to build a React/Node.js application for bootcampers to have a centralised location to have access to all things School of Code. Implemented back end routes (RESTful API) and set up database with PostgreSQL/Heroku and React on the front end. Led Scrum meetings & managed project goals on Trello.

BASIC POKÉDEX | WEBSITE | GITHUB

Used HTML, CSS and VanillaJS to build a basic Pokédex. Conceptualised and designed the front end
